Contact us today to get started!

College Transitions

Maine College Transitions (MCT) programs are comprehensive programs of study leading to enrollment in a post-secondary institution. MCT includes career planning, academic preparation, financial aid assistance, college planning, and ACCUPLACER testing. MCT is in partnership with Maine community colleges and the university system. We offer high quality, cost-effective, and accessible pathways to post-secondary education for adults.

Who is eligible?

- Adults with a high school diploma or equivalent
- Adults who need academic preparation for college and did not reach the ACCUPLACER cut scores
- Adults who need assistance in the college application process

HiSET Preparation

If you are at least 17 and left school without a diploma, the HiSET might be the way for you to earn a high school credential. Accepted by many colleges and employers, the HiSET tests allow you to demonstrate your knowledge in five subject areas. The following preparation classes are available to help you reach your goal of obtaining your high school equivalent.
